

Dear Parents:

As you may know, one of the students in -----'s class suffered the loss of a parent this week. We want you to know that we have had discussion in the classroom about the loss and have been very mindful of your children's fears and concerns.

We will continue to monitor the emotional well-being of every student as we work to welcome the student back to the classroom with friendship and compassion. We hope that you will stay in touch and keep us apprised of any issue raised by your child at home that may also be impacting classmates. As always, we have excellent staff members and counselors available to assist you and your child.

Here at -----, we are truly blessed to be part of a wonderfully caring and giving community. Over the past two days, I have heard so many heartwarming stories of outreach concerning this loss within our school family. Please continue to let us know if there is more that we can do to help your child, or your family, as we support one another in loss.
