

Dear Parents and Students:

As you may know, the -----School family suffered a grave loss yesterday with the death of eighth-grade student ----- from unknown causes. -----'s loss has been felt deeply within our school and our community.

Today, members of our district counseling staff, our Child Study Team and the Burlington County Crisis Response Team have been at ----- throughout the day to counsel students. Additional counseling services will remain available throughout the week for those in need. We invite students and parents to contact our counseling staff directly if you have questions or concerns.

I know that you share our deep sympathy and concern for the ----- family at this very difficult time. We have asked our students and staff to look after one another as we deal with the loss of our student, classmate and friend. We extend that request to each of you as well.

Principal
